SmartBOMS™

*Equipment **B**ill **O**f **M**aterials Solution*

Traceability Of Equipment and Parts

- ◊ Hierarchical Representation of Assets, Equipment and Parts
- ◊ Cross-Reference of Active and Superseded Parts

Easy to Plan Maintenance

- ◊ Tagged Equipment Data for Maintenance Program Planning
- ◊ Data Import and Export Capability, Including MS Excel

Reduced Operations Costs

- ◊ Reduced maintenance and down-time costs due to automation of previously manual processes
- ◊ Fewer major equipment failures

SmartStager™

Traceability Of Project Material

- ◊ Financial traceability of storing and issuing material against charge codes and cost objects
- ◊ Location of material for specific project and across multiple projects
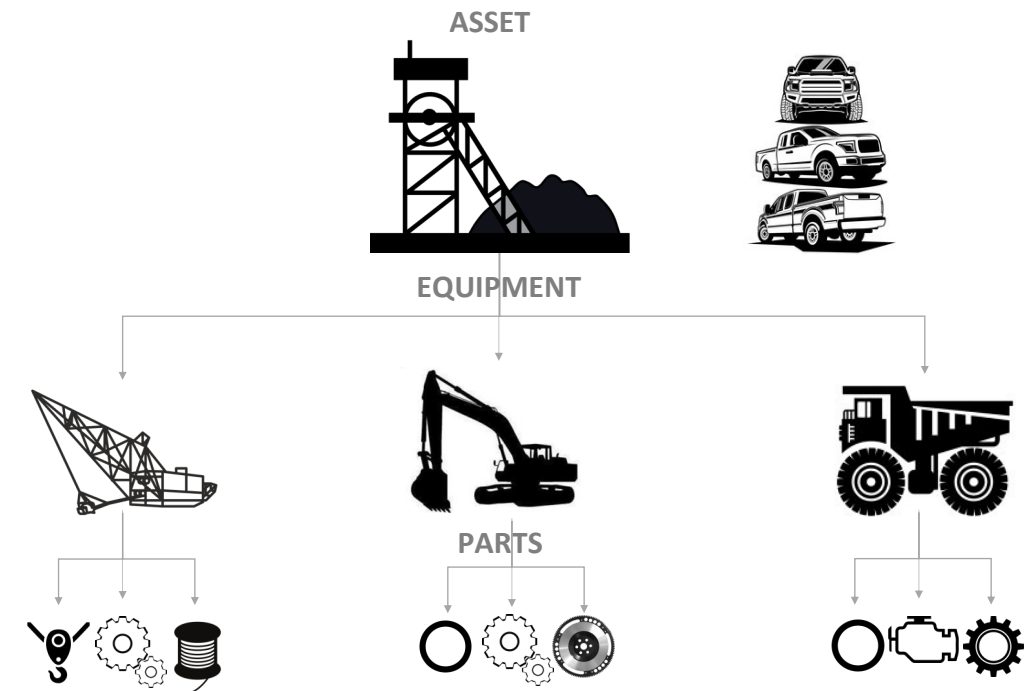

Timely Completion of Projects

- ◊ Material physically and systematically grouped and staged by the project
- ◊ Project start date easily accessible and extractable into Excel for prioritization

Reduced Project Management Costs

- ◊ Reduced number of lost, back-ordered or 'borrowed for another project' items
- ◊ Efficient processes and organized space = reduced warehousing cost
